**Subject:** MIT Alternatives

Hi Dan,

Alternatives for MITs are listed in the following Region 5 guidance:

<https://www.epa.gov/sites/production/files/2015-09/documents/r5-deepwell-guidance5-determination-mechanical-integrity-200802.pdf>

The only approved alternative that is not listed is a Single Point Resistivity Log for Class III In-Situ Uranium Injection Wells using PVC or fiberglass casing (FR Vol. 54 No. 19 Page 4903 January 31, 1989 with effective approval date of April 3, 1989). I don't know if this is only for uranium mining.

Thanks, Nancy
